

4L Cube With Vertical Fold in Fibreboard Box
U.N. Registered Composite Package

Our 4L collapsible container with vertical fold is made of Low Density Polyethylene. This bottle is ideal for use as a shipping container for a wide range of Chemicals and numerous general uses.

When used in conjunction with the carton, cap and closure method outlined below, this product meets the UN classification for transportation of Group II or III liquid fill dangerous goods. Classification is good for land and sea transport.

In order for package to meet U.N. classification, all components must be precisely as identified in this document. No deviations to bottle, carton, carton closure, cap or cap closure methods are permitted. It is the responsibility of the filler to ensure that these details are adhered to.

Package conforms to U.N. CAN/CGSB-43.150-97 specifications. Registration number 6HG2/Y1.5 /50/YY/CAN/REL 2-1857.

BOTTLE

Compatibility of fill product with container is the responsibility of the filler.

For bottle performance specifications, dimensions and shipping data, refer to sales specification number SS-FX-007 for the 4L Cube. UN Registration is for SP 400 38mm neck finish. To order, reference Reliance product code number 063100000, 063300000 or 063400000.

CARTON

The carton is a 275# / 44 ECT test C-flute singlewall fibreboard carton that comes collapsed for optimum space utilization. The interior dimensions of the assembled carton are 165mm x 165mm x 190mm. The carton is to be erected and sealed with Swift Adhesive Cold Glue # 15675.

Carton is available through Reliance by referencing product code number 00049774. Adhesive Cold Glue is available through Swift.

CAP AND CLOSURE

Bottle is to be sealed with a MAC Closures Inc. 38mm SP 400 219 series polypropylene cap with a Tri-Seal liner. These caps may be purchased through Reliance or directly through the manufacturer, MAC Closures Inc. The caps should be sealed with a torque of 25 in-lbs.
